ASCENDANT PREDICTIONS

Description

Ascendant is one of the most sought concepts in astrology when it comes to predicting the minute events in your life. At the time of birth, the sign that rises in the sky is the person's ascendant. It helps in making predictions about the minute events, unlike your Moon or Sun sign that help in making weekly, monthly or yearly predictions for you.

Your ascendant is Scorpio

Personality

Those born with the Scorpio ascendant have critical and analytical brains and are excellent planners and smart implementers of ideas. They study every tiny aspect of a problem and know precisely when to respond and how to carry out their remarks by considering and evaluating everything. These individuals are hardly the sort to take risks and can wait calmly for the appropriate moment. When it concerns establishing friendships, they are highly selective and do not form friendships on the spur of the moment. Scorpio ascendants might be harsh sometimes and are more likely to attempt to take control over a scenario. Their demand for control can be a source of violence and irritation. They are highly ambitious people who might be pushy when it relates to achieving their objectives.

Physical

Ruled by the planet Mars, Scorpio ascendant has broad shoulder arches and a well-built physique. They possess a square face and clean-cut details. Scorpio ascendants' eyes own a deep intense look and are innately appealing. They have a sensual set of lips along with a symmetric nose. The hair is usually dense in consistency and has a brownish tone to it. They are exceptionally attractive people who convey strength while maintaining a feeling of concealment. They also carry a sincerity about themselves which suits their whole physical image.

Health

Scorpio ascendant natives are prone to picking up on others' pessimism and being influenced by it. They possess a tendency to overanalyze and embellish things. People born under the rising sign of Scorpio will experience many health problems as a result of this. They have a poorer metabolism and encounter indigestion. Tumors, cysts, swelling, and other ailments are caused by these conditions. Although Scorpios are typically strong and robust, their large intestine plus the region near their colon might be troublesome. They also have indigestion for the majority of their lifespan. They are also vulnerable to sexually transmitted diseases or STDs.

Career

No sign can match Scorpio's capacity to focus attention on just one issue at a time. Any job that demands a lot of attentiveness and focus is ideal for a Scorpio rising. They are well-suited to jobs in research, where they may devote their time and effort to tackling a single topic over a significant period of time. Their capacity to concentrate is advantageous in any profession that demands a high level of commitment. Finance or law are ideal disciplines for the Scorpio ascendant people because they require patience to acquire a large number of facts. So, if they want to work with people, they should go into investigative or therapeutic work, where the focus isn't to win individuals over, but rather to get solutions from them so that problems may be solved.

Relationship

Scorpio ascendants are the type of individuals who want absolute commitment from their spouses. They are the type of individuals who want their companions to offer them everything or nothing in their connection or marriage. They might be the utmost loyal and faithful companion in their relationship. However, they could also be the most paranoid and insecure. They are looking for a mate who is ready to commit to them for the rest of their lives. Lying on Scorpio rising natives may be difficult because they are intuitive and may sense when their lover is unfaithful.

This report considers the Nakshatra that you were born in to suggest the most appropriate Rudraksha for you. Wearing the recommended Rudraksha shall shield you against the negative energies and help retain positivity in your life.

Rudraksha & its importance

Rudraksha beads are produced by the 'Rudraksha Tree' scientifically called Elaeocarpus. The tree grows at a certain altitude in the mountains, especially the Himalayas - the home to Lord Shiva. The seeds are known to have very unique vibrations that aid the spiritual and physical growth of the wearer. In Hindu scriptures, it is mentioned that the one who wears Rudraksha is blessed with the virtues of Dharma, Artha, Kama, and Moksha. KALSARPA DOSHA

● PRESENT

Type **Ghatak Kalsarpa**

Kalsharpa Dosha is present in Kundli.

Kaalsarp dosh in astrology is considered as one of the most concerning doshas. According to astrology, Kaalsarp dosh is often a result of one's past deeds or karma. The presence of this dosh in your kundli may create hurdles or delays across different aspects of your life such as career, love, marriage, health and more. The Kaalsarp dosh is formed when Rahu and Ketu are present on one side in the horoscope and all other planets are in their midst.
As per astrology, there are seven main planets (excluding Rahu and Ketu), each of them ruling various aspects such as Lagna, wealth, happiness, children, disease, household, age, fortune, karma, profit, love, expenditure, etc. As Kaalsarp dosh veils the planets, the aspects they represent may get hampered, which may lead to problems in the life of the native. In astrology, there are as many as 12 Kaalsarp doshas. Each of these form as per the placement of Rahu and Ketu in the native's chart. Your kundli has Ghatak Kaalsarp dosh.

Ghatak Kaalsarp Dosh

As per astrologers, the Ghatak Kaalsarp dosh is formed in Kundli when Rahu is placed in the 10th house and Ketu sits in the 4th house of the native's kundli. When you have this dosha in kundli, it is highly recommended that you serve your mother, take care of her and never cause her any harm. This will help in bettering your life conditions. However, it has been noticed that in return, you may not get the same kind of affection from your mother. Due to Ghatak Kaalsarp dosh, the person becomes arrogant even if he or she does not have anything to be proud of. Your ego is at the top of your head, which may hamper not only your personal but your professional bondings too.

Remedies for Ghatak Kaalsarp Dosh
